Advanced Gynecologic Oncology Care, Close to Home

Dear Colleague,

At [UChicago Medicine](#), we understand the complexity of gynecologic cancers and the importance of expert, compassionate care. Our multidisciplinary team provides comprehensive treatment for ovarian, uterine, cervical, endometrial, vulvar and vaginal cancers, combining cutting-edge therapies with a deeply patient-centered approach. We offer:

- Consultations, second opinions, surgery and follow-up care at multiple [Chicagoland and Northwest Indiana locations](#)
- A collaborative team of specialists in gynecologic oncology, medical oncology, cancer genetics and radiation oncology
- Advanced surgical options including minimally invasive, robotic and fertility-sparing techniques

- Phase I–III clinical trials at [Hyde Park](#), [Orland Park](#), [Crown Point](#), and [UChicago Medicine at Silver Cross Hospital – New Lenox](#), along with phase II–III trials at [UChicago Medicine AdventHealth](#)
- Access to [PRISM](#), our internationally recognized sexual health program for survivors
- Supportive oncology services including social work, nutrition, physical therapy and survivorship programs

Referring your patients is simple. **For new patients, call 773-702-8222. For returning patients, call 773-702-6118.** We're here to partner with you and provide seamless, coordinated care.

Sincerely,

Ernst Lengyel, MD, PhD

Arthur L. and Lee G. Herbst Distinguished Service Professor and Chair, Obstetrics and Gynecology
